

### **Information Guidelines.**

***To ensure a reasonable and prompt estimate, please provide information as follows.***

- Fill in Personal Details.
  - Draw the existing walls of your home and apply dimensions (shade the walls lines with angled ticks).
  - Draw the outline of your design and apply dimensions.
  - Draw the location for steps, hand railing and other features.
  - Indicate the vertical height dimensions of:
    - Ground to house floor.
    - House floor to bottom of house fascia.
    - Ground to deck floor at each corner.
- (Be sure to apply related "alphabetical letter" to areas on your design).
- Fill in Specifications and Comments.
  - Fax your completed Design Concept to **(F) 9762 9912.**

Once the completed form is received one of our Design Consultants will contact you with a price estimate.

---

\*\*Minimum price estimates start at \$6000.00 Price estimates will be provided as a range only.  
Price estimates do not form any part of a Building Contract.  
Fixed price quotations are only available following an onsite appointment.  
Price estimates will only be provided for projects in our serviced areas.  
All information required will be kept strictly confidential and will not be passed on to any other party.
